Table of Contents

1 Introduction 7
1.1 Approach to Identify Highly Hazardous Drugs 8
1.2 Risk Management/Assessment Model to Address the Controls to Comply with 21 CFR 211.42(c) 8
1.3 How the Approach Fits Into Cleaning Validation 9
1.4 Background 9
1.5 Scope of this Guide 10
1.6 Current Situation 10
1.7 How to Use this Guide 11

2 Concepts and Regulatory Philosophy 13
2.1 Overview of the Risk Management Approach 14
2.2 Acceptable Risk 15
2.3 The GMP and Industrial Hygiene Balance 16

3 Quality System Requirements 19
3.1 GxP Quality Policies 19
3.2 GxP Quality Standards 20
3.3 Gap Analysis 20
3.4 Auditing of Quality Systems 20
3.5 Application to Cross-Contamination 20
3.6 The Logic Diagram 21

4 Risk Assessment 31

5 Risk Identification 33
5.1 Definition of Hazard 33
5.2 Hazard Continuum and Prioritization for Risk Assessment 34
5.3 Establishing Health-Based Exposure Limits 35
5.4 Setting Health-Based Safety Thresholds/Acceptance Limits 42
5.5 Setting Occupational Exposure Limits (OELs) 46

6 Risk Analysis 47
6.1 Holistic Approach to Risk Analysis 48
6.2 Tools 48
6.3 Routes for Cross-Contamination 50
6.4 Probability of Occurrence 55
6.5 Product Exposure Risk in Non-Product Contact Areas 60
6.6 Detection 61

7 Risk Evaluation 63
7.1 Cleaning Process Performance Capability 64
7.2 Cleaning Evaluation for New Products 64
7.3 Residue on Non-Product Contact Surfaces 64

8 Risk Control 67
8.1 Holistically Balanced Approach 68

9 Risk Reduction ... 71
9.1 Hierarchy of Risk Reduction ... 72
9.2 Risk Reduction: Routes of Exposure ... 73
9.3 The Role of Pharmaceutical Research and Development in Risk Reduction ... 76
9.4 Process and Related Technologies ... 77
9.5 The Role of Facility Engineering in Risk Reduction ... 79
9.6 HVAC ... 84
9.7 Containment Related Technologies ... 85
9.8 Personal Protective Equipment (PPE) and Gowning ... 86

10 Risk Acceptance ... 87

11 Risk Management Tools ... 89
11.1 Risk Ranking or Risk Matrix ... 90
11.2 Failure Mode and Effects Analysis (FMEA) ... 91

12 Risk Review ... 95

13 Risk Communication ... 97
13.1 Summary Document Template ... 98

14 Appendix 1 – Risk-MaPP Application Examples ... 101
14.1 Introduction ... 101
14.2 Scenario 1 (Obviously Acceptable) ... 102
14.3 Scenario 2 (Obviously Unacceptable) ... 105
14.4 Scenario 3 (Apparently Acceptable (but was not)) ... 107
14.5 Scenario 4 (Apparently Unacceptable (but was)) ... 117
14.6 Logic Diagram ... 128

15 Appendix 2 – Bibliography ... 129
15.1 References ... 129
15.2 Reading List ... 133

16 Appendix 3 – Glossary ... 137
16.1 Abbreviations and Acronyms ... 137
16.2 Definitions ... 141
