The Singapore Affiliate Proudly Presents

Today's Containment Solutions

Thursday 13th September 2012

The Chevrons

ISPE Singapore Affiliate is pleased to present the following Seminar:

Today's Containment Solutions

SEMINAR OBJECTIVES

The Containment Solutions Seminar is an ISPE Singapore affiliate event. Its aim is to provide a detailed look at currently available containment solutions, when, where and how they should be used, common issues experienced during selection and operation and what to do with them after use.

WHO SHOULD ATTEND

ISPE seminars are a great place for your employees to work interactively with industry experts and peers to gain valuable skills and knowledge. We welcome all professionals, particularly those involved in the selection or use of containment solutions; from LAF's to gloveboxes, flexible or solid and everything in between.

Fee: Free for members, $30 for non-members
Thursday 13 September 2012

Speaker - Simon White

Simon is a mechanical engineer who over the past 12 years has built up a detailed understanding of contained processing and retrofitting of containment solutions. His first role was in R&D and pharmaceutical equipment design and then field service/commissioning, project management and most recently, equipment sales. His career has centred primarily around life science process and containment equipment with roles at Atritor, Hosokawa Micron, Howorth Air Technology and PSC Asia. Based in Singapore since 2009, Simon moved out to establish the Howorth Air Technology Pte Ltd regional office and is currently a part owner and director of TRAQuE Pte Ltd, providers of training, regulatory compliance consulting and auditing, validation and equipment engineering services; and Howorth Air Technology Pte Ltd, the Singapore arm of Howorth Air Technology, suppliers of containment and healthcare solutions to the regional life science markets.
