11:00am – 11:30am – Tea Break and Networking

11:30am – 12:30pm – Q&A and Conclusion

OVERVIEW

One of our most popular topic "Water Systems" has many subjects to be debated and challenged upon. ISPE Singapore is organizing one such workshop where the water system's unchallenged subjects ("the common way of doing things") related to Water System Design will be brought on table, discussed and challenged to arrive at practical and creative solutions. This will be a completely interactive workshop led by subject matter experts from different disciplines like Design, C&Q, Operations, Maintenance and QA/QC.

WORKSHOP OBJECTIVE

To bring on table the most common questions from Critical Utilities COP forum and/or Workshop Participants and debate, get expert's opinion to arrive at possible solutions. If this is challenging a traditional way of doing things, and we prove that there is a smarter solution, we can then present our solutions to Global ISPE Experts to get their approvals and publish as Papers or Updates to ISPE guides.

WHO SHOULD ATTEND

- System Designers – Process Engineers, Mechanical Engineers
- C&Q
- Users -Production/Maintenance
- QA/QC
- Suppliers

WORKSHOP LEADS

- Chairperson: Saravanan Jeyakumar (Critical Utilities COP Chairman)
- C&Q Expert: Pierre Winnepenninckx/Gearoid Cronin
- Design Expert: Roberto Corna
- QA/QC Expert: Maria

Free for…

ISPE Members and IES Members

And

$40 for Non Members

TO REGISTER

See Registration and Payment below. Kindly complete the registration form below and return to ispesingaffiliate@gmail.com by **COB Monday 16th September 2013.**

REGISTRATION AND PAYMENT

Cash or cheque payment will be accepted.

Cheques are made payable to: "International Society for Pharmaceutical Engineering (S)".

Please present cheque or cash payment on the day of the Workshop.

Giro/bank transfers will be accepted, but please note that participants will be required to provide proof of payment by way of transaction reference/receipt on or before the seminar.

CANCELLATIONS
