ISPE Singapore Affiliate is pleased to present the following Seminar:

Containment Solutions for OSD key machines

SEMINAR OBJECTIVES

The Containment Solutions Seminar is an ISPE Singapore affiliate event. Its aim is to provide a detailed look at currently up-to-date containment solutions for the solid oral dosage (OSD) production KEY MACHINES.

Fluidbed-processors – tablet compression – tablet film-coating.

WHO SHOULD ATTEND

ISPE seminars are a great place for your employees to work interactively with industry experts and peers to gain valuable skills and knowledge. We welcome all professionals, particularly those involved in the selection or use of containment solutions for fluidbed-processors, tablet compression and tablet film-coating machines.

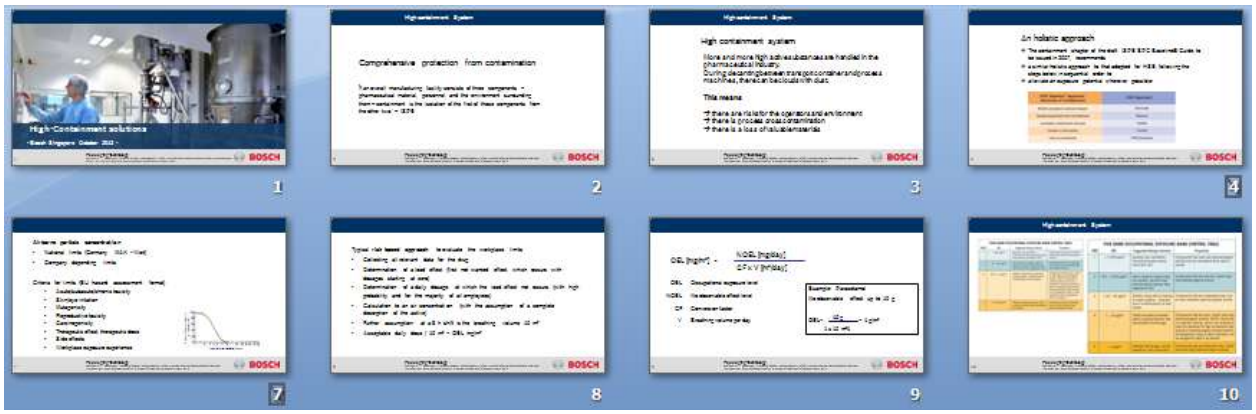
Speaker – Gunter E. Arlt

Gunter was born in 1952 and holds a degree in mechanical engineering / business economics. He joined as member of the Singapore ISPE affiliate many years ago. Since 1981 he works mainly in Middle-East and Far-East Asian countries. From 2000 he held senior positions in the pharmaceutical machine builders industry. Before joining Bosch, Gunter gathered hands-on engineering expertise as production- and service-manager in the field of processing plants for the mining and rubber industry. He worked as project- and contract-manager implementing material handling systems, among others for the chemical and

pharmaceutical industry. Today Gunter is sales manager at Bosch-Huettlin located in Schopfheim, Germany. He is responsible for the sales of the Huettlin and Manesty portfolio in countries of Asia.



VENUE
