# PIC/S AND THE GLOBALIZATION OF PHARMACEUTICAL MANUFACTURING

The majority of the leading pharmaceutical manufacturing nations have enacted regulations that increase the amount of required inspection of raw materials in large part due to the adoption of PIC/S.

PIC/S Annex 8 requires 100% inspection of all incoming raw materials, which can seem like a daunting task. This presentation will discuss the impact of PIC/S Annex 8 on manufacturers and the latest technologies available to enable compliance with PIC/S guidelines.

**Learn** about the PIC/s mission and impact of 100% inspection to the pharmaceutical industry.

**Review** case studies on PIC/s adoption and its impact.

**Discover** innovative technology solutions that enable compliance with PIC/s guidelines.

**Network** with peers and subject matter experts sharing challenges and best practices as the industry moves toward 100% inspection.

**SPEAKER:**

**Jeremy Linoski**  
*Application Scientist and Compliance Specialist*  
Thermo Fisher Scientific

**LOCATION:**

Raffles Marina, Chartroom  
10 Tuas West Drive, Singapore 638404  
March 11, 2013 5:30 – 7:30PM
